Canada Mortgage and Housing Corporation (CMHC) / Société canadienne d'hypothèques et de logement (SCHL)

National Office/Bureau national:
700 Montreal Rd./700, chemin de Montréal,
Ottawa, ON K1A 0P7

Canada Mortgage and Housing Corporation (CMHC) is the Government of Canada's national housing agency with a mandate to help Canadians gain access to a wide choice of quality, affordable homes, through four areas of housing activities – housing finance, assisted housing, research and information transfer, and more recently export promotion.

Housing finance activities centre around giving Canadians access to affordable financing choices. The main tool for achieving this goal is the mortgage loan insurance program, which has helped many Canadians realize their dream of owning a home. CMHC provides approximately \$2 billion annually to help Canadians most in need to gain access to safe, affordable housing. Through research, CMHC encourages innovation in housing design and technology, community planning, housing choice and finance. As Canada's national housing agency, CMHC also works in partnership with industry and other Team Canada members to sell Canadian products and expertise in foreign markets, thereby creating jobs for Canadians at home.

CMHC also has a variety of information products available relating to technical housing research, assisted housing, market analysis, home buying, maintenance and renovation, as well as information on market opportunities abroad for housing exporters.

La Société canadienne d'hypothèques et de logement (SCHL) est l'organisme fédéral responsable de l'habitation. Son mandat consiste à aider les Canadiens à avoir accès à un vaste choix de logements de qualité, à prix abordable, par l'entremise de quatre secteurs d'activité : le financement de l'habitation, l'aide au logement, la recherche et la diffusion de l'information et, plus récemment, la promotion des exportations.

En ce qui a trait au financement de l'habitation, la SCHL s'efforce de faire en sorte que les Canadiens aient accès à différentes options, à coût abordable. Le principal instrument lui

permettant d'atteindre cet objectif est son Programme d'assurance prêt hypothécaire, qui a aidé de nombreux Canadiens à réaliser leur rêve de posséder une maison. La SCHL dépense 1,9 milliard de dollars par année pour que les Canadiens les plus démunis puissent se procurer un logement convenable, à prix abordable. Par l'entremise de ses activités de recherche, la SCHL stimule l'innovation dans les domaines suivants : conception des habitations, technologie du bâtiment, urbanisme, options de logement et financement. A titre d'organisme national responsable de l'habitation, la SCHL s'associe également avec le secteur de l'habitation et les autres membres d'Équipe Canada afin de vendre les produits et le savoir-faire canadiens sur les marchés étrangers et, ainsi, de créer des emplois ici-même, au pays.

La SCHL diffuse également une variété de produits d'information portant sur la recherche technique en habitation, l'aide au logement, l'analyse de marché, l'achat de maison, l'entretien et la rénovation; elle fournit aussi de l'information sur les débouchés à l'étranger aux exportateurs de produits du bâtiment.

Canadian Down Syndrome Society

811 14th St. N.W., Calgary, AB T2N 2A4

The Canadian Down Syndrome Society is a national organization dedicated to improving the quality of life for individuals with Down syndrome through advocacy, education and information. Services and activities for persons with Down syndrome, parents and professionals include: information and education provided through our web site, quarterly newsletter, annual conference, Resource Centre, and publications; research collaboration; advocacy; support; and public awareness. National Down Syndrome Awareness Week is November 1-7 annually. CDSS has a multi-disciplinary Resource Council of professionals and collaborates with local groups and national organizations toward common objectives. Major funding for the society's activities is from donations.

La Société Canadienne du Syndrome de Down (SCSD) est une organisation nationale qui vise l'amélioration de la qualité de vie des individus ayant le Syndrome de Down. Les services offerts sont : l'information, l'éducation, le support aux parents intervenants et professionnels, la collaboration au niveau de la recherche, la défense des droits, la participation et la mise en place d'événements et de conférences. Vous pouvez aussi bénéficier d'un centre de ressources incluant les plus récentes publications, d'un catalogue de ressources et de notre journal trimestriel. De plus nous jouons un rôle primordial de sensibilisation lors de la semaine nationale du Syndrome de Down du 1er au 7 novembre. La SCSD travaille en constante collaboration avec les groupes locaux et les organisations nationales dans la réalisation d'objectifs communs. Les dons sont la principale source de revenus et permettent à la SCSD de poursuivre ses activités.

Canadian Hydrogen Energy Company Ltd.

182 Wellington St. W.,
Bowmanville, ON L1C 1W3

The Canadian Hydrogen Energy Company Ltd.'s patented revolutionary Hydrogen Fuel Injector System is a non-intrusive, onboard hydrogen generator that disassociates hydrogen and oxygen, through electrolysis, and injects the hydrogen into the air intake of the engine. This causes substantial fuel savings, dramatic emission reduction, and increased torque and horsepower.

Canadian Institute of Actuaries / Institut canadien des actuaires

150 Metcalfe St., Ste. 800,
 Ottawa, ON K2P 1P1

The Canadian Institute of Actuaries (CIA) is the national body that represents and regulates Canada's 2,600 actuaries. While the actuary's traditional role was to calculate liability values for insurance risks, actuaries today are involved in everything from investment portfolio risk management to setting up public and private pension plans. Actuaries are trained in a broad range of skills – tax law, the mathematics of finance, statistics, demography and probability theory – and are expert sources on topics such as saving for retirement, changes to the Canada Pension Plan, health care spending and the insurance industry.

THE LUNG ASSOCIATION L'ASSOCIATION PULMONAIRE

Canadian Lung Association

3 Raymond St., Ste. 300,
Ottawa, ON K1R 1A3

Lung disease is the third leading cause of death in Canada. For over 100 years, the Lung Association has worked to improve the respiratory health of Canadians through education, advocacy, prevention and research. The Lung Association is a not-for-profit volunteer-based organization. Ten provincial Lung Associations provide lung health programs to help Canadians breathe easier.

Les maladies pulmonaires constituent la troisième principale cause de décès au Canada. Depuis plus de 100 ans, l'Association pulmonaire s'est appliquée à améliorer l'état de la santé respiratoire des Canadiens par la prévention, la recherche, l'éducation et les services. L'Association est un organisme sans but lucratif. Il existe également dix associations provinciales qui offrent des programmes de soutien aux Canadiens afin de mieux respirer pour mieux vivre.

Canon

Canon Canada Inc.

6390 Dixie Rd., Mississauga, ON L5T 1P7

Headquartered in Mississauga, Ontario, the company employs 1,600 people at its offices nationwide, servicing the Canadian market from coast to coast. Innovation and cutting-edge technology have been essential ingredients in Canon's success. Canon's leadership in imaging, optical and document management technology and solutions is based in large part on the thousands of patents the company has secured throughout its history. Currently, Canon Inc. is among the top three patent recipients in the United States over the past twelve years.

The company's comprehensive product line includes networked multifunction devices; digital and analogue copiers (colour and black and white); printers, scanners, image filing systems, facsimile machines; calculators, digital and analogue camcorders, digital and analogue cameras and lenses; semiconductor, broadcast and other specialized industrial products.

Canon supports programs that help preserve and protect the environment and instituted the Clean Earth Campaign in 1990, which assists various environmental and recycling initiatives. The Campaign has also supported leading environmental organizations, such as the Nature Conservancy of Canada, the World Wildlife Fund of Canada and the Canon Envirothon.

Au total, 1 600 employés travaillent à son siège social, situé à Mississauga, en Ontario, et à ses succursales partout au pays afin de desservir le marché canadien, d'un océan à l'autre. L'innovation et la technologie de pointe sont la force motrice du succès de Canon. Le leadership de Canon en matière de technologie et de solutions d'imagerie, d'optique et de gestion de documents est en grande partie fondé sur les milliers de brevets obtenus par la société au cours de son existence. À l'heure actuelle, Canon Inc. se classe parmi les trois premières sociétés pour ce qui est du nombre de brevets déposés aux États-Unis au cours des douze dernières années.

La gamme complète des produits de la société comprend des appareils multifonctions réseau, des copieurs numériques et analogiques (monochromes et polychromes), des imprimantes, des scanners, des systèmes d'archivage d'images, des télécopieurs, des calculatrices, des caméscopes numériques et analogiques, des appareils photo numériques et analogiques et des objectifs, des semi-conducteurs, de l'équipement de diffusion et d'autres produits industriels spécialisés.

Canon soutient des programmes de protection et de préservation de l'environnement et a lancé, en 1990, la Campagne pour une planète propre pour appuyer plusieurs initiatives de protection de l'environnement et de recyclage. La Campagne pour une planète propre a également soutenu des organismes importants de protection de l'environnement tels que la Société canadienne pour la conservation de la nature, le Fonds mondial pour la nature (Canada) et le programme Envirothon de Canon.

Customs Excise Union Douanes Accise

1741 Woodward Dr., Ottawa, ON K2C 0P9

To see through CRA & CBSA spin on Customs border security, Excise GST processing, or Trade administration – to find out what is or isn't really happening – call the voice of those doing the actual work. CEUDA, one of 17 PSAC Components, represents 10,500 members across Canada: 4,000 uniformed Customs Officers, and 6,500 Trade administration and Excise GST processing employees at the CRA & CBSA.

Pour aller au-delà de l'interprétation que donnent l'ARC et l'ASFC à la sécurité frontalière, au traitement de l'Accise et la TPS, et à l'Administration des politiques commerciales – pour découvrir ce qui se passe ou qui ne se passe pas vraiment – invitez les personnes qui effectuent le travail à se prononcer. La CEUDA, l'un des 17 Éléments de l'AFPC, représente 10 500 membres d'un bout à l'autre du Canada, 4 000 agentes des douanes et 6 500 employés de l'Administration des politiques commerciales et du traitement de l'Accise et de la TPS à l'ARC et l'ASFC.

With an enterprise value of approximately \$30 billion, EnCana is one of North America's leading independent oil and gas companies. EnCana pursues predictable, reliable, profitable growth from its portfolio of long-life resource plays situated in Canada and the United States. EnCana defines resource plays as large contiguous accumulations of hydrocarbons, located in thick or areally extensive deposits, that typically have low geological and commercial development risk and low average decline rates. The application of technology to unlock the huge resource potential of these plays typically results in continuous increases in production and reserves and decreases in costs over multiple decades of resource play life. EnCana's disciplined pursuit of these unconventional assets has enabled it to become North America's largest natural gas producer and a leading developer of oilsands through in-situ recovery. EnCana common shares trade on the Toronto and New York stock exchanges under the symbol NCX.

Ronald Gdanski, Author and Speaker

P.O. Box 141, Grimsby, ON L3M 4G5

Ron Gdanski's latest book, *VIRUSES, A New Theory*, identifies viruses to be the reproductive genes – bits of DNA or RNA – of fungi and protozoa. Cancer, genetic defects and nerve-related diseases result from human genes incorporating fungal genes during mitosis (cell-division). We eliminate viruses by eliminating fungal and protozoan infections.

ISLAM – The Ahmadiyya Movement in Islam

Canadian Headquarters:

Bai'tul Islam Mosque, 10610 Jane St.,
Maple, ON L6A 3A2
(2 km north of Canada's Wonderland)

The Ahmadiyya Movement in Islam, a worldwide community projecting true message of Islam, has more than 70 million followers spread in over 160 countries around the world. The community was founded in 1889 by Hadhrat Mirza Ghulam Ahmad of Qadian, India (1835–1908), who claimed to be the Messiah awaited in Judaism, Christianity and Islam (as well as the expected Mahdi for Muslims), and also, the Later Day prophet awaited in many other religions under various other names, with the mission of guiding mankind back to God. The present leader of the community (called the "Khalifa") is Hadhrat Mirza Masroor Ahmad. He is based in London (U.K.).

PERLEY~ROBERTSON, HILL & McDUGALL LLP

The Smartest Legal Decision You'll Ever Make.

Stanley J. Kershman

Perley-Robertson, Hill & McDougall LLP,
90 Sparks St., Ottawa, ON K1P 1E2

PROBLEMS ARE SIMPLY SOLUTIONS IN WAITING™ – Canadians owe more than \$458 billion dollars: that's almost \$15,000 for every man, woman and child in the country. In the U.S. it's \$9.3 trillion in total and \$31,730 individually. We've become addicted to credit, and Stanley J. Kershman believes it's time to stop. In fact, he wrote the book on the subject: his consumer guide *Put Your Debt on a Diet* (Wiley, 2003) followed his highly successful legal reference *Credit Solutions* (Carswell, 2001). A bankruptcy and insolvency law specialist with more than 25 years' experience, Kershman appears frequently in print, radio and TV media, helping audiences understand consumer and commercial bankruptcy, debt reduction strategies, and alternative dispute resolution. On deadline? Looking for straightforward answers to complex issues? Stanley Kershman can help.

MAC

The Mining Association of Canada
L'Association minière du Canada

The Mining Association of Canada

350 Sparks St., Ste. 1105,
Ottawa, ON K1R 7S8

The Mining Association of Canada is the national organization of the Canadian mining industry. It comprises companies engaged in mineral exploration, mining, smelting, refining and semi-fabrication. Member companies account for the great bulk of Canada's output of metals and major industrial materials.

The Association's main role is to project the views of the industry and work with governments on policies affecting minerals. The MAC works closely with the provincial mining associations and other similar groups across Canada.

Natural Resources Canada
Ressources naturelles Canada

Natural Resources Canada / Ressources naturelles Canada

580 Booth St., Ste. 15C9,
Ottawa, ON K1A 0E6

Natural Resources Canada (NRCAN) is a federal government department specializing in the sustainable development and use of natural resources – energy, minerals and metals, and forests. Our work contributes to the economic importance of these resources and allied industries, and to a strong society and communities through knowledge, innovation, technology and international leadership – helping ensure our quality of life and building the Canada we want, for ourselves and for future generations.

Ressources naturelles Canada (RNCAN) est un ministère du gouvernement fédéral qui joue un rôle important dans le développement durable et l'utilisation des ressources naturelles, notamment l'énergie, les minéraux et les métaux ainsi que les forêts. Nous contribuons à l'importance économique du secteur et des industries connexes et nous créons une société et des collectivités fortes grâce au savoir, à l'innovation, à la technologie et à l'exercice d'un leadership international. Nous pourrions ainsi préserver notre qualité de vie et bâtir le Canada que nous voulons, pour nous-mêmes et pour les générations futures.

Office of Energy Efficiency

580 rue Booth St., Ottawa, ON K1A 0E4

Natural Resources Canada's Office of Energy Efficiency (OEE) has everything you need to save energy, save money and help protect the environment. Through its many programs for the residential, commercial, industrial and transportation sectors, the Government of Canada has a wide range of programs to help Canadians and our industries, businesses and institutions become more energy efficient. The OEE can help you take the one tonne challenge through proven ways to save energy – and money – at home, at work and on the road while reducing greenhouse gas emissions that contribute to climate change.

L'Office de l'efficacité énergétique (OEE) de Ressources naturelles Canada a tout ce dont vous avez besoin pour économiser de l'énergie, économiser de l'argent et contribuer à la protection de l'environnement. Dans le cadre de ses nombreux programmes à l'intention des secteurs résidentiel, commercial, industriel et des transports, le gouvernement du Canada offre une vaste gamme d'initiatives pour aider les Canadiens, les industries, les entreprises et les institutions à devenir plus éconergétiques. L'OEE peut vous montrer des moyens sûrs pour économiser l'énergie – et de l'argent – à la maison, au travail et sur la route tout en réduisant les émissions de gaz à effet de serre qui contribuent au changement climatique.

Patented Medicine Prices Review Board / Conseil d'examen du prix des médicaments brevetés

333 Laurier Ave. W., Ste. 1400,
Ottawa, ON K1P 1C1

An independent quasi-judicial tribunal, the PMPRB limits the prices set by manufacturers for all patented medicines sold in Canada to ensure that they are not excessive. Sales of patented drugs account for over 67% of all drugs sold in Canada. The PMPRB reports annually to Parliament on its activities, price trends of medicines, and patentees' R&D expenditures.

Le CEPMB est un organisme indépendant détenant des pouvoirs quasi-judiciaires. Il exerce un contrôle sur les prix du fabricant des médicaments brevetés vendus au Canada afin qu'ils ne soient pas excessifs. Les médicaments brevetés accaparent plus de 67 % des ventes totales de tous les médicaments vendus au Canada. Le CEPMB fait rapport au Parlement chaque année de ses activités, des tendances des prix des médicaments et des dépenses de R-D des brevetés.

Waddington's
Canada's Auction House Since 1850

Waddington's Auctioneers & Appraisers

111 Bathurst St., Toronto, ON M5V 2R1

Waddington's is Canada's oldest and most internationally recognized auction house. In business for more than 150 years, Waddington's employs about 40 staff, including specialists in the decorative arts, Canadian art and many other collecting categories. Auctions range from the contents of Maple Leaf Gardens, to some of the finest art in the world, and even semi-weekly "Evening Out" estate auctions that are a bargain hunter's dream.

Waddington's continues to grow and in 2002 partnered with Joyner Fine Art to form Joyner Waddington's Canadian Fine Art. Waddington's recently expanded with offices in B.C. and Collingwood in an effort to better serve all of its clients across Canada. Waddington's growth recently led to the creation of a new auction facility in Brighton, Ontario, which features many of the items previously found in the weekly estate auctions, now in an exciting "country auction" atmosphere.

Barrie Zwicker

91 Raglan Ave., Toronto, ON M6C 2K7

Broadcaster and writer Barrie Zwicker has specialized in media criticism since 1970 and has become a leader in the "9/11 truth movement," those who see the evidence surround-

ing the events of 9/11 as contradicting the official story. The former *Globe and Mail*, *Toronto Star*, *Vancouver Province*, *Sudbury Star* and *Detroit News* writer who founded *Sources*, is producer of the 44-minute video *The Great Deception* (March 2002) and the 75-minute DVD *The Great Conspiracy: The 9/11 News Special You Never Saw* (Sept. 2004).

Seven reasons to turn to Sources first!

1. Save time. Few other directories cluster names, titles, work numbers, extensions, e-mail addresses, home numbers, fax numbers and more, accessed through a subject directory
2. Establish quick rapport with the contact person you reach, because you already know her/his name and organization basics.
3. Diversity. Few other directories are so eclectic: large and small organizations, private and public, profit and not-for-profit, across the country and across more than 12,000 subjects. Newsworthiness.
4. New angles. You'll often run across ideas, contacts, and angles you hadn't thought of at the outset.
5. Because it's up-to-date. Most directories are annuals. This one's published twice a year in print format and is available — with latest updates — on *Sources Select Online*, 24 hours a day, year 'round. For those who like print but are not sure they want to pay for a subscription, **Sources** is available in Adobe Acrobat pdf format that you can print yourself, at your convenience, and only the pages that are of interest to you.
6. Your needs are at the centre of the aims and objectives of sources. Listing organizations are urged to think of journalists' needs at all times.
7. Just using this directory — and *Sources Select Online* — keep it coming your way. Especially when you take a couple of seconds to say: "I found you in **Sources**."
